As we continue the fight against the Commonwealth's opioid epidemic, I am once again partnering with the Delaware County District Attorney's Office in encouraging residents to drop off medicines, prescription and over-the-counter drugs. By law, needles and epi-pens will not be accepted.

To help ensure the highest level of public safety, participating community members are asked to wear masks when speaking with staff and to remain in their vehicles at all times. Also, please refrain from parking in parking spots. Your cooperation is greatly appreciated.

Please call my office at **610-358-5925** for more information.
